E & H Bridge and Grating, Inc.

Our open metal decking system is a cost effective solution for your bridge needs.

Why Choose E&H

- Proven expertise in modular bridge design
- Manufacturers A-588 weathered steel pre-engineered flat beam bridges with open metal grid decking.
- A-588 steel beam concrete deck bridges
- Maintenance free and weather safety
- Quick and easy install
- Cost-effective and time-saving solutions.
- In most cases will lighten the dead load permitting higher load limits on existing truss bridges.
- Striving for our customers satisfaction is our #1 priority.

Products

Open metal grid deck packages

When constructing a new bridge our open metal grid deck packages include 4" metal grid decking, steel beams, bearing plates, diaphragms, assembly hardware and guardrail package.

Concrete deck packages

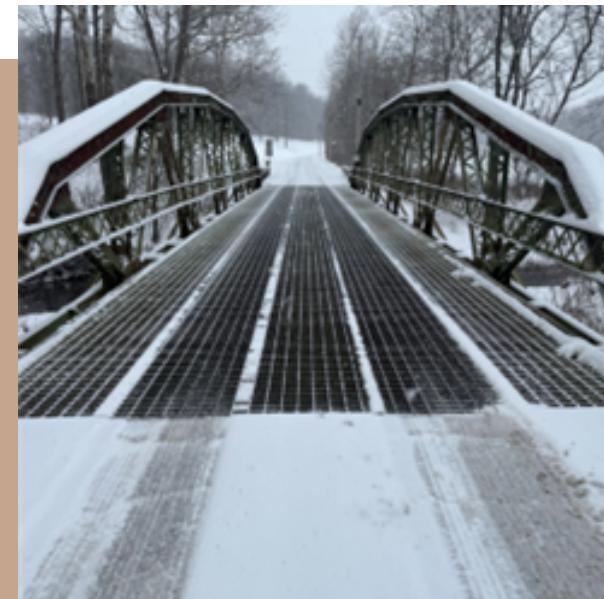

If a concrete deck is the option you have selected, we offer a concrete deck package which includes galvanized metal pour in place deck pan package, steel beams, shear studs, bearing plates, diaphragms, side plates, assembly hardware and guardrail package.

Guardrail packages

We have a complete line of guardrail products to meet your requirements. Our guardrail is hot dipped galvanized after fabrication to ensure a maximum life span.

Many of the challenges you face with other bridge options are solved with our open metal grid decking system.

Our team offers expert guidance from design to installation, ensuring seamless project execution.
